April 9, 2021

Dear Friends & Family of Calvary Place

I trust that this letter finds you all well. Calvary Place is fortunate to not have any outbreaks, so at this time I will be sending updates every two weeks instead of weekly. Please note that if circumstances suddenly change, updates will be provided in a timely manner.

As you are aware, Manitoba continues to remain in the Pandemic Level Red due to the increase in cases of COVID and of the COVID variant. Concerns have been expressed of a 3<sup>rd</sup> Wave hitting us, and preparations should occur in anticipation. Calvary Place continues to monitor the situation closely and continues to participate in meetings with the WRHA 3 times per week where updated information is provided. In-Services are being held for staff regarding Doffing and Donning (putting on and taking off) of Personal Protective Equipment (PPE) to ensure compliance to current Infection Control Protocols. We have acquired a number of Foot Activated Hand Sanitizer Dispensers, which will be placed at the staff entrance, front entrance to Calvary Place, and one at the entrance to the Indoor Visitation Rooms.

Please note the following information:

- The backyard is currently for independent resident use, 1:1 Resident Visits with staff, and for Small Group Organized Activities.
- The outside benches at the front of Calvary Place can be utilized by residents who are accompanied by one Designated Family Caregiver (one bench, one visitor, one resident).
- No congregated visits with other family members
- General Visitors are allowed to visit utilizing the Indoor Visitation Rooms which must be pre-booked via our website and only one visitor at a time
- Medical face masks must be worn for the entire duration of the visit, both for indoor and outdoor visits
- All visitors must be screened and sign in and sign out. This is especially crucial if we have an outbreak and contact tracing needs to occur
- Hand Hygiene must take place before and after visits
- Please do not congregate around the Nursing Station
- If you are feeling unwell, we ask that you please not come to Calvary Place.
- Calvary Place reserves the right to temporarily suspend all visits during an outbreak until contact tracing has been completed and in discussion with/at the direction of Public Health

Thank you again to all of you for your continued prayer and support.  
As always, stay safe and take care
