January 7, 2022

Dear Friends & Family of Calvary Place

I wanted to inform you before you heard it from another source, that unfortunately one of our residents has tested positive for COVID-19.

At this time, the affected Unit is 3 North thus 3 North has been placed into the Red Zone. Visitation of Designated Family Caregivers for 3 North has not been suspended at this time, however not encouraged.

For any Designated Family Caregiver who wishes to continue to visit their family on 3 North, please see the Unit Nurse before proceeding onto the Unit. You will be provided with gloves as well as an Isolation gown that must be worn in addition to the face mask and eye protection. These items **MUST** be worn for the entire duration of your visit. No exceptions.

For all residents residing on 3 North, swabs will be taken to test for COVID-19. The testing will commence today and will continue once more supplies arrive. Infection Control Practices are in place. As you know, this variant is highly transmittable and may be difficult to contain, however we will try our best.

We continue to have approximately 7 employees off with COVID and we wish them all, including our affected resident, a speedy recovery. I will try and keep you posted as best I can.

Please continue to keep us in your prayers

Sincerely,  
Helmut Plett, RPN  
CEO/DOC
