December 31, 2021

Dear Friends & Family of Calvary Place

Manitoba is experiencing a significant surge in COVID-19 cases, with very high test-positivity right across the province. The new Omicron variant is extremely infectious, requiring some temporary additional precautions to ensure the protection of our most vulnerable community members.

Our collective goal is to keep COVID-19 out of personal care homes wherever possible and to minimize spread within the homes for both the safety of our residents and the protection of our workforce.

Following discussion with Infection Prevention and Control Experts and Public Health, we have made the very difficult decision to temporarily suspend both social visits and social leaves for all residents. Please note that all General Visits as well as visits of Unvaccinated Designated Family Caregivers, are suspended for both in room visits as well as for the Indoor Visitation Rooms. Designated Family Caregivers, who are fully vaccinated, may continue to visit in room. (A medical grade mask and eye protection must be worn the entire duration of the visit)

We know that this will be disappointing for family members and residents and we are committed to regularly assessing the need for these measures. It is our sincere hope that these additional precautions will be necessary for a very short period of time.

Thank you for your understanding. If you have questions, please refer to the frequently asked questions document that has been attached to this email.

Sincerely,
Helmut Plett, RPN
CEO/DOC
